

MRC/UVRI and LSHTM Uganda Research Unit

African Career Accelerator Awards: Expression of Interest Form

This form is mandatory for the application process, in order to progress to the full application stage. It will be used to help identify and link you to potential supervisors, and if successful in this you will be sent a link to the application portal for a full application. Alternatively, if you are ineligible or your proposal is out of the thematic scope of the call, you will be notified and your application will not be progressed. Please ensure that you have read the Guidance notes for applicants prior to submitting this form.

Name:	
Did you attend a Crick African Network Research Methods Workshop?	

Eligibility

Nationality:		Country of Residence:	
Do you have a PhD?			
If yes, in which year was the PhD awarded?			
How many years of Post-Doctoral experience do you have?			

Research Interests

<p>Describe your proposed research for the Fellowship programme in 400 words. This should include what you would do in each location, how long you would spend in each location (up to a duration of 2 years in total), and the techniques you would use or (at the Crick) which Science Technology Platforms you would want access to.</p> <p>Note: this is to try to find Group Leaders who are most aligned with your proposal and with whom you can discuss the work further, <i>not</i> an assessment of the proposal. If your text does not fit in the box provided you may attach a separate document, whilst still adhering to the 400 word limit.</p>

Please provide three keywords to describe your proposed research:	1.
	2.
	3.

Which African partner institution in the Crick African Network would you like to work with?	
If known, please write down up to two Principal Investigators/ Group Leaders in your chosen African partner institute ¹ who you think may be suitable to support your research:	1.
	2.
If known, please write down up to two <u>Crick Group Leaders</u> or <u>Science Technology Platform</u> leads who you think may be suitable to support your research:	1.
	2.
